98th AMASI Skill Course and FMAS Examination

(Fellowship in Minimal Access Surgery)

December 1st to 3rd, 2023,

Venue

HIMSR & HAHC Hospital, New Delhi

Under the Auspices of

College of MAS
Dear Colleagues,
We are delighted to announce the upcoming FMAS Skill Course, scheduled for December 1st to 3rd, 2023, at Hamdard Institute of Medical Sciences & Research (HIMSR), New Delhi. Hamdard Institute of Medical Sciences & Research (HIMSR) situated in Hamdard Nagar, New Delhi, aims to expedite its scope in life sciences & health domains and provide excellent medical education. The institute is supported by HAHC Hospital that provides outstanding healthcare at an affordable cost with over 740 beds. HIMSR brings together educational facilities of the highest order for the training of personnel in all esteemed branches of healthcare. HIMSR has been nationally recognized as an institute that demonstrates a high standard of Undergraduate and Post-Graduate Medical Education. According to NIRF ranking 2023, it has been ranked 29th in the medical category.

It establishes a philosophy of Hamdard, “Compassion, concern, care and sharing in pain,” by fulfilling the dream of Hakeem Abdul Hameed to create an institute for suffering humanity.

This course aims to provide comprehensive training in Fundamental Laparoscopic Skills (FMAS) and is designed for both practicing and aspiring surgeons.

Our course will offer a unique opportunity to interact with experienced faculty members and enhance your proficiency in Laparoscopic Surgery. The sessions will cover a wide range of topics, from basic techniques to advanced procedures, with the primary objective of equipping all participants with the necessary skills to perform Laparoscopic Surgery proficiently.

In addition to our general laparoscopic curriculum, we are pleased to introduce a specialized track for Gynecologists. This dedicated section will feature lectures tailored to their specific needs and challenges in Gynecological Laparoscopy. Gynecologists will also have the opportunity to take the FMAS examination, including a separate Gynecology-focused paper.

We extend a warm invitation to all delegates to join us for this FMAS Skill Course. We look forward to engaging in fruitful discussions and knowledge-sharing during the course. Our goal is to ensure that your understanding of Laparoscopic surgery safety is crystal clear, and you leave with valuable take-home lessons.
